

Windmill Hill Primary School

Autumn Term Curriculum Plan – Y6

English	<p>This term, we are writing an ‘Autobiographical Snapshot’. Children will write three detailed chapters based on different aspects of their life – it is a wonderful opportunity for the class to get to know each other better whilst discovering which skills the children have managed to retain from the previous years. The children will discover the importance of the re-drafting process and learn to craft and retain details within their work to improve their writing.</p> <p>Reading is assessed and all children are encouraged to read a wide range of books including: myths, legends and traditional stories, modern fiction, fiction from our literary heritage, and books from other cultures and traditions. Pupils will practise their handwriting and be encouraged to increase the speed of it, so that problems with forming letters do not get in the way of writing down their ideas. We talk about the standard of handwriting and overall presentation that is expected for a range of different tasks</p>
Maths	<p>During the first term, there will be an emphasis on ‘Place Value’ and the four rules of ‘Number’. The prior learning is assessed and children work through all of the formal calculations methods: addition, subtraction, multiplication and division. The learning will lay the foundations for a growing emphasis on reasoning next half-term and will equip all pupils with the skills that they need to solve multi-step word problems. The working week will be split into arithmetic, reasoning and shape data and measure to reflect the proportion of learning objectives and the curriculum content.</p> <p>‘BIG Maths’ is introduced to all children and a baseline will be taken so that that each child has their own, individual target. ‘BIG Maths’ motivates all children to improve speed and accuracy when faced with number bonds and times tables: the skills that underpin the use of the formal methods.</p>
Science	<p>‘Animals Inc. Humans’ - Children will build on their knowledge and understanding of different systems within the body. They will research the parts and functions of the circulatory system. They will focus on how nutrients are transported around the human body. Children will explore how a healthy lifestyle supports the body to function and how different types of drugs affect the body.</p> <p>If it is felt that the children had a more positive learning experience when choosing their own topic order, we will look to allow them to choose again in HT2.</p> <p>Inheritance and Evolution - This unit builds on the children’s learning from the Year 3 Rocks unit as well as the Animals including Humans and Living Things and their Habitats units. As such, it is important that children have the appropriate understanding of fossils, habitats and human development in order to grasp the concepts and ideas presented to them in these lessons. Children will learn about variation and adaptation. They will be able to</p>

Windmill Hill Primary School

	<p>explore how both Charles Darwin and Alfred Wallace separately developed their theories of evolution. They will examine the scientific evidence from plants and animals that has been gathered to support the theory of evolution.</p>
Topic	<p>Titanic – Children will go on a learning voyage discovering one of the most infamous tragedies in the modern era.</p>
Computing	<p>This term, we will focus on e-safety by looking at how to use the internet safely and what to do if the children come across any dangers.</p> <p>We will be looking into computer programming using programs such as 'Scratch' and Kodable to work on some complex algorithms and fault-finding.</p> <p>Children will learn how to use vital Microsoft Office software. Firstly, we will look at more advanced features of Microsoft Word and we will use Microsoft Excel to create custom graphs for self-assessment.</p>
PE	<p>In Dance, this term, the children will be practising for the Christmas production.</p> <p>In PE, the children will participate in a variety of invasion games. They will focus on the importance of teamwork and how to handle the ball correctly.</p> <p>Premier Sports, who specialise in multi-sport coaching, will lead PE.</p>
French	<p>Madame Lila, our language specialist, will be teaching French every Wednesday.</p> <p>The children will get the opportunity to extend their vocabulary and research French customs and traditions. Children will build upon their work from last year and have further opportunities to build on their knowledge and understanding of the French language.</p>
PSHE	<p>In PSHE, we will be looking at new beginnings; the importance of achieving your goals and the significance of making friends and lasting relationships.</p>
Music / Performing Arts	<p>The children will continue to receive weekly singing lessons (every Monday) in assembly. During this time, the children will be learning a range of notes and songs through singing to live instrumentals.</p> <p>The children look forward to performing for you on a number of occasions this year. Some children have volunteered to take part in the choir and will showcase their talents in a competition this term.</p> <p>Music, as always, plays a major role in our Christmas performance. All children will have the opportunity to learn synchronised dance and singing in harmony. Children will have the chance to audition for solo singing performances.</p>
