

Windmill Hill Primary School

16th September 2021

Dear Parents and Carers

Please see the attached letter from the Halton Child Immunisation Team regarding the upcoming Flu Vaccination programme. The session for Windmill Hill Primary School is on Monday 15th November. Please note the vaccine is administered via a nasal spray, however, if you would prefer your child to have the injected vaccine, please contact the team to discuss.

The team will be using e-consent forms instead of paper copies and you will find the link to access this within the letter. Please follow this link and provide all information requested. The link will close two working days before the immunisation takes place. Please complete the online form even if you wish to opt out of the vaccination. This will save the team time chasing people for their response.

If you would like a paper copy of the consent pack, please contact the immunisation team directly – we do not have any at school. The phone number is 0151 495 5066. Please only use this if you are unable to complete the form online.

Thank you for all your ongoing support.

Kind regards

Miss P Newman
Headteacher
